# Gen-next Business Desktop Media Phones
Yealink T5 Smart Media Phones

Yealink's T5 Smart Media Phones, including the T58V, T58A and T56A, are Yealink's next-generation desktop media phones for high-end business users. The phones bring users enriched, smooth HD audio and video as well as extended functions with built-in media ports. Based on the Android operating system, Yealink smart media phones offer a better overall operation experience and support third-party app installation for business customization.
