HEADSET SERIES

Deliver frictionless and comfortable audio experience for personal communication.

- World-Class Voice Quality
- Virtual Workspace Extension
- People-First Design
- Full Scenarios Solution

World-Class Voice Quality

TO COMMUNICATE, NOT HEAR OR SAY

Applied industry-leading audio technologies, Yealink Headset Series deliver an extremely clear audio experience without any distractions even in some noisy environment to ensure high concentration and ideal productivity in daily work.

Acoustic Shield Technology

Yealink Acoustic Shield Technology ensures distraction-free audio quality in daily calling with a virtual shield created by multiple microphones, to ensure you've been heard clearly.

3 Dynamic Active Noise Cancellation

Intelligent dynamic ANC, including four modes(ANC level medium, ANC level high and Ambient Sound), brings customizable noise cancellation adjustment in different environments for a more suitable and comfortable active noise cancellation effect.

ANC level medium:
For a public office, cafe,
or restaurant

ANC level high:
For on-the-go scenes,
like flights or train rides

Ambient Sound:
For any moment you want
full ambient sound in

Hi-Fi Level Audio Codec aptX

Adopted Hi-Fi level audio codec aptX delivers pure and delicate sound with less distortion, lower noise floor, and intricate details of high-quality music.

Virtual Workspace Extension

TO WORK IN YOUR WORLD, NOT FOR THE WORLD

STATION, an innovative product concept from Yealink applied in WH6X DECT Series and BH7X Bluetooth Series, aims to deliver a virtual uninterrupted workspace and reshape the desktop working experience in terms of simplifying the working environment, boosting productivity and work flexibility.

UC Workstation

Yealink created the UC Workstation in WH6X DECT Series to help users redefine their workspace in terms of boosting productivity and work flexibility. With a unified design concept of plug-and-play and all-in-one, the UC Workstation is ideal for hot desk, work from home, and co-working spaces. It supports connection with multiple devices like mobile phones and PCs so that you can manage communications from a single device. By integrating devices like a speakerphone, a 4-inch touch console, and a USB hub, it offers an incredible set of features and allows you to meet, connect and collaborate seamlessly and intelligently.

All Devices in One

All Connection in One

All Control in One

PowerStation

PowerStation is a special design in BH7X Bluetooth Series for flexible and efficient office using. More than powering for BH7X Series Headsets, it also supports the wireless charging of daily devices, instead of cable clutter and battery anxiety.

People First Design

FOR PLEASURE, NOT PRESSURE

Before being the best professional headsets to enhance productivity, concentration & collaboration in the office, Yealink Headsets firstly determines to become the headsets comfortable enough for all-day wearing. Without the consideration of wearing comfort, everything is nothing.

All-day-wearing Comfort

The ergonomic lightweight design of Yealink Headset Series ensures enough comfort for long conference calls and all day use.

Future-Standard Design

Beyond what we regularly consider in the design, like a good look or some hot fashion, the Yealink Headset Series do it from the view of the future but now, which means to design every product basing its users' future demands and scenarios, covering both style needs and user needs. When you wear it, you win both elegance and confidence.

Super Durability

Every headset of Yealink has been through thousands of durability test of falling, wearing, rotating, etc., ensuring a ideal durability that surpassing normal electronic consuming products.

WH62 Dual/Mono

WH63 Dual/Mono

Recommended Users: Chief Executive / Manager / SOHO

Recommended Scenarios: Home Office / private Office / Hot Desking

Workstyle Preference: Intelligent, Flexible, Seamless

The Yealink premium DECT Wireless Headsets WH66 & WH67 X UC Workstation give users the possibility and flexibility to connect devices and manage communications from a single device, and also act as a hub that integrates a full-duplex speakerphone, fast charging wireless mobile phone dock, 4-inch touch console, and high-speed USB hubs which, together offer an incredible set of features allowing you to meet, connect and collaborate seamlessly and intelligently.

Recommended Users: General Staff / Receptionist / Call Center Operator

Recommended Scenarios: Home Office / Open Office / Call Center / Co-Working Space

Workstyle Preference: Efficient, Simplified, Productive

With the Yealink Essential DECT Wireless Headsets WH62 & WH63, interruptions will no longer be an issue for users who want to stay focused at work, especially with the use of the Yealink branded Busylight, providing a visual cue and indicator that help to reduce distractions and eliminate interruptions. Plus, with Yealink DECT technology, users can move around the office without losing their calls, with up to 160 meters' mobile range and up to 14-hour talk time, which brings greater flexibility to your daily communication.

UH37
Dual/Mono

Recommended Users: Call Center Professional / General Staff

Recommended Scenarios: Call Center / Office Room / Home Office

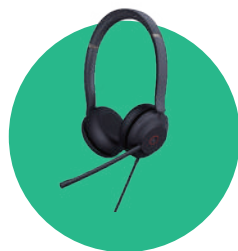

Workstyle Preference: Stable / Concentrated / Comfortable

The Yealink UH37 headsets come in Mono and Dual two styles and is a professional USB headsets for office users and remote workers who require a stable and comfortable communication experience.

It features dual noise-canceling microphones, Acoustic Shield Technology, and a 35mm speaker to ensure a smooth and pleasant communication experience. The ultra-lightweight body is 15% less than the previous generation's all-day wearing comfort. It can work seamlessly with major UC platforms and integrate natively with Yealink IP phones.
